by planting our double-worked trees. The Grinces part le budded about 18 inches from the ground on a bardy suriety not susceptible to collar-rot. These Bouble-worked Grimes have roots and stock that are two sessons growth.

RICHARED (Trade Marked) DELICIOUS This strain of common Delicinus colors up a solid red live or three weeks rather that in the richical in flavor, size, shape and texture. The Hichard originated sear Evanatcher, Hashington, in the orehand planted in 1910 of 0. T. Hichardwan. Treats of the third concernion grown from this original tree have bornel resist trans-to-treats. Wherever the common Delicious thrives, Illis Richard will prove more profit-table because it can be picked and marked their weeks earlier with solid red color Hindhalls are avoided as due feeping quality is better.

Purchasers are required to evan an agreement not to sell or give away or dispose of any buds or eclous from these trees. PRICES ON RICHAREO DELICIOUS

BLAXTAYMAN (Trade Marked)

This Is a new introduction from Wenalcher, Washington, a cort of the common Stayman Winesap-sidentical in every respect except that Bactayman colors up a cell bloadpred. It has the same abhantairs over the common Stayman as the Hichared does over the common Debrucus.

Turnbases are required to size an arterment out to sell or rise away or dispose of any buls or scious from these trees.

This Letter, Feb. 12, 1930, Confirms Our Policy

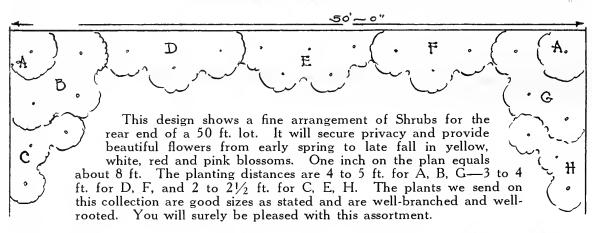

"I am sending you this order at a figure some five dollars higher than that offered by a competing firm. Last spring we purchased a lot of California Privet from you and it is because of the high quality of your product that I am sending this to you."

A Beautiful Outdoor Living Room-What a source of enjoyment for the entire family and their guests.
